### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Morris Liss on 4/15/04. Applicant agreed to correct the typing error in page 7, line 29 to read as "Brief Description of the Drawings". Additionally, applicant agreed to correct the grammar error of claim 13, line 5, after the term "which has," to delete "at" and insert - -as- -. It was also noted that term "air recirculated" lacked antecedent basis. Applicant agreed to replace "recirculated" with - - circulated - -.

The application has been amended as follows:

In the specification:

At page 7, line 29, the terms "Brief Description of the Invention" was deleted and - -Brief Description of the Drawings- - was inserted.

In the claims:

In claim 13, line 5, after the term "which has," the term "at" was delete and - -as- - was inserted.

In claim 13, line 15, the term "recirculated" was deleted and the term - - circulated - - was inserted.

In claim 13, second to the last line, the term "recirculated" was deleted and the term - - circulated - - was inserted.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The cited prior art fails to disclose or reasonably suggest a manifold, having a group of exchangers connected thereto, situated where the pre-annealing and annealing zones meet and where the annealing and post-annealing zones meet. As noted by applicant in the remarks section filed on 2/2/04 in page 9 third paragraph , the closest prior art such as US 5125948 disclose gaps X and Y between the annealing zones. The closest prior art such as US 5125948 fails to disclose or reasonably suggest placing heat exchangers/manifolds in the "inter-zones" where the different of the annealing zones meet.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos Lopez whose telephone number is 571.272.1193. The examiner can normally be reached on Mon.-Fri. 8am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571.272.1189. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
